

# SEGREDOS DA SUBTRAÇÃO - 2

Violeta resolve as subtrações pensando no material que agrupou de 10 em 10. Ao calcular quanto é  $72 - 28$ , ela, primeiro, desagrupa uma dezena e, então, retira os 28 palitos, registrando assim:

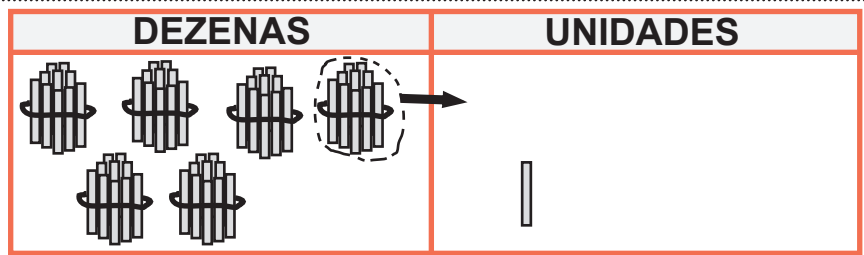

D	U
7	2
- 2	8

Sobraram 4 dezenas e 4 unidades.

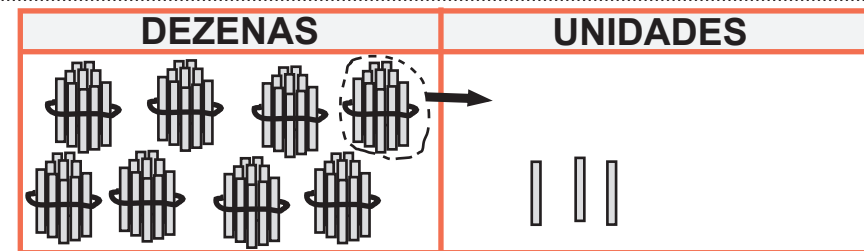

Mostre como Violeta desagruparia as dezenas para calcular:

$$\begin{array}{r} 61 \\ - 17 \\ \hline \square \end{array}$$

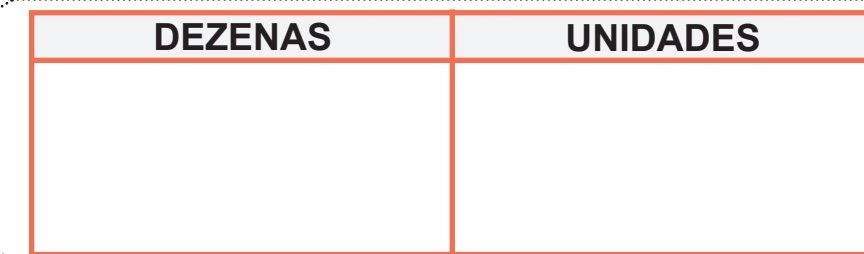

Sobraram \_\_\_\_\_

$$\begin{array}{r} 83 \\ - 48 \\ \hline \square \end{array}$$

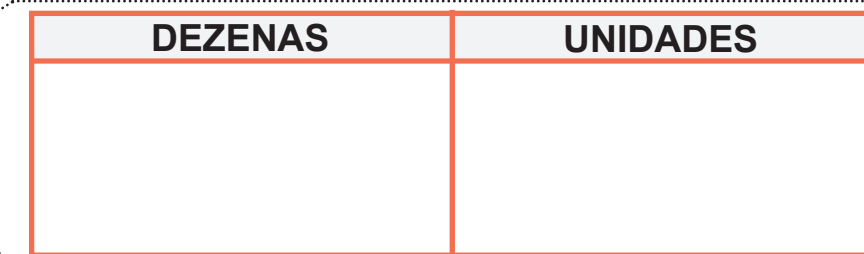

Sobraram \_\_\_\_\_

$$\begin{array}{r} 52 \\ - 16 \\ \hline \square \end{array}$$

Sobraram \_\_\_\_\_

$$\begin{array}{r} 70 \\ - 29 \\ \hline \square \end{array}$$

Sobraram \_\_\_\_\_
